プロフィール Profile
<p>自己紹介/Self-introduction</p> <p>I am Sardor Mannonov from Uzbekistan, one of the Central Asian countries. Currently, I am a LLM candidate at the Graduate school of international cooperation studies of Kobe university. So far, I have studied at University of World Economy and Diplomacy in Uzbekistan, Academy for International Business Officials in Beijing (China), Riga Graduate School of Law (Latvia). Despite short period of my stay in Japan, I can say that this country is one of the fabulous and secure place to live around the world.</p> <p>研究分野について/About study field</p> <p>As I have been studying international law (public and private) for more than five years in different countries. So, this time I decided to research international judicial system through the International Court of Justice as it is the only universal and international judicial body. I hope my research will make its contribution to maintain peace and security around the world, especially now. The world is now experiencing very severe conflicts between countries such as Russia vs Ukraine, Israil vs Palestine and etc. It is the most horrible scenario that innocent civilians are mostly suffering from such kinds of political conflicts, which should have been solved by peaceful methods including the International Court of Justice.</p>
