$$\text{新「聴解・聴読解」} = \left(\frac{\text{旧「聴解」} + \text{旧「聴読解」} - 120}{32.3194} \right) \times 27.4628 + 100$$

$$\text{新「読解」} = \left(\frac{\text{旧「読解」} - 80}{22.4240} \right) \times 27.4628 + 100$$

新「聴解・聴読解」:New “listening and listening-reading comprehension”

旧「聴解」:Former “listening comprehension”

旧「聴読解」:Former “listening and reading comprehension”

新「読解」:New “reading comprehension”

旧「読解」:Former “reading comprehension”

Both values rounded off at the first decimal place will be regarded as the converted scores. However, when the converted score exceeds the revised range of scores ($0 \leq \text{new “listening and listening-reading comprehension”} \leq 200$ and $0 \leq \text{new “reading comprehension”} \leq 200$):

the converted score which is more than 200, shall be equal to 200, or

the converted score which less than 0, shall be 0.
