1. Details of the EJU

(1) Aims

This examination is used to evaluate the Japanese language proficiency and basic academic abilities of international students who wish to study at the undergraduate level at universities or other such higher educational institutions in Japan.

(2) Examination Subjects

According to the requirements of the university they want to enter and the course of study they want to pursue, the examinees select the subject tests that they will take from the following table. Examinees may not choose to take both the Science test and the Japan and the World test.

Subject	Purpose	Length	Score Range
Japanese as a Foreign Language	Measurement of the Japanese language skills (academic Japanese) required for studying at Japanese universities.	125 minutes	Reading comprehension, listening and listening-reading comprehension 0-400
			Writing 0-50
Science	Measurement of the basic academic skills in science (Physics, Chemistry, and Biology) necessary for studying in a science department of a Japanese universities.	80 minutes	0-200
Japan and the World	Measurement of the basic academic skills in liberal arts, particularly thinking and logical abilities, necessary for studying at Japanese universities.	80 minutes	0-200
Mathematics	Measurement of the basic academic skills in mathematics necessary for studying at Japanese universities.	80 minutes	0-200

The score range mentioned above, excluding the writing of Japanese as a Foreign Language, will not be given in the form of the raw score but on a common scale. The writing will be scored based on the standard.

(3) The Structure and Evaluation of Japanese as a Foreign Language

- Structure: The test in Japanese as a Foreign Language consists of writing, reading comprehension, and listening and listening-reading comprehension.
- Order and Time: The order of the examinations is writing (30 minutes), reading comprehension (40 minutes), listening-reading comprehension, and listening comprehension (about 55 minutes for listening-reading comprehension and listening comprehension combined).
- Score range: The score range 0-400 totaling reading 0-200, and listening comprehension and listening-reading comprehension 0-200, and the score range 0-50 for writing will be indicated.

(4) The Structure of Science

In the science area, according to the requirements of the university they want to enter and the course of study they want to pursue, **examinees have to select two subjects from physics, chemistry and biology on the examination day.** In case only one subject is selected, your answer for science will not be graded.

(5) The Structure of Mathematics

In the mathematics area, according to the requirements of the university they want to enter and the course of study they want to pursue, **examinees have to select either Course 1 for liberal arts faculties or science faculties where comparatively less mathematics is required, or Course 2 for faculties where higher level mathematics is required on the examination day.**

(6) Subject Test Syllabi

A syllabus for each subject test is posted on the JASSO website.

EJU Syllabus

<https://www.jasso.go.jp/en/ryugaku/eju/examinee/syllabus/index.html>

(7) Examination Language

The questions can be written in Japanese or English. (The examination of Japanese as a Foreign Language will be written only in Japanese.) Since the Japanese and English question booklets will be different, according to the requirements of the university they want to enter and the course of study they want to pursue, examinees should notify which they prefer at the time of application.

Examinees wishing to take the EJU in English are requested to exercise care when selecting a testing site. This is because the number of such testing sites offering English services is limited. (Please refer to pages 13-14.)

(8) Answering Method

For Japanese as a Foreign Language, the answering methods are multiple-choice (mark-sheet) and writing (examinees are to actually write Japanese sentences.). For mathematics, science and Japan and the World, the method is the mark-sheet.

(9) Examination Time

Subject	Answering Time	Examination Time (incl. other timing such as distribution of question booklets and answer sheets)
Japanese as a Foreign Language	125 minutes	9:30–12:00
Science	80 minutes	13:30–15:00
Japan and the World	80 minutes	
Mathematics	80 minutes	15:40–17:10

After completing the test for each subject, it will be confirmed that all question booklets and answer sheets have been collected. Because of this, examinees will only be able to exit the testing room about 15 minutes after expiration of the “Examination Time” in the table above.

2. University Requirements on Subject Test Selection

Please be aware that Japanese university requirements of examination subjects and languages regarding EJU vary according to each institution. While some universities (or some departments/courses) require international students to take specific subject tests of the examination, other universities (or departments/courses) do not require students to take the examination at all.

EJU scores earned over the past two years (results from a maximum of four sessions) remain valid. However, certain universities and other institutions may designate the specific years and the number of exams that may be used when submitting applications.

Therefore, **before application, make sure you contact the university to which you will apply and ask about their latest requirements.**

The list of Japanese universities that use EJU scores for the selection of enrollees is posted on the following website.

練	正 しい	① ② ③ ④
習	正しくない	① ② ③ ④

⇒

練	正 しい	① ② ③ ●
習	正しくない	● ● ● ④

The correct answer is 4, so mark the answer number 4 in the "Correct" row on the answer sheet. You must also mark the numbers 1, 2, 3 in the "Incorrect" row.

(5) How to Answer for Science

- a. Science consists of "physics", "chemistry" and "biology". There is one booklet for science. Select two subjects from "physics", "chemistry" and "biology" on the examination day. In case only one subject is selected, your answer for science will not be graded.
- b. The answer sheet for science is double sided, so use each side to answer the questions for only one subject.
- c. At the top of the middle of the answer sheet there is a space to select the subject you will answer. (For science, this is at the top of both sides of the answer sheet.) Circle the name of the corresponding subject and blacken the oval under it. **If the selected subject is not blackened, your answers will not be graded.**

[Correct Example] When using the front side for "physics" and the reverse side for "chemistry"

(裏面でもう1つの科目を解答してください。)

- d. One of the row numbers **1** , **2** , **3** , ... is provided for each question in the question booklets. These numbers are also printed on the answer sheets, so blacken the appropriate answer choice (① to ⑨) in the answer row with the same row number given in the corresponding question.
- e. The answer sheet has answer rows numbered from **1** to **75** , but you may not need to use all of them. Use only the answer rows needed to answer all questions, and leave the remaining answer rows blank.
- f. Every answer row has 9 choices (① to ⑨), but the actual number of choices provided in some

questions may be less. In such cases, ignore the unused choices in the answer row.

[Exercise]

Q. What is the speed of sound in seawater? From ① to ⑤ below, choose the best answer.

12 m/s

① 30 ② 150 ③ 300 ④ 1500 ⑤ 15000

↑
Row number

[Answer Sheet]

12	①	②	③	●	⑤	⑥	⑦	⑧	⑨
----	---	---	---	---	---	---	---	---	---

Since the choices for question 12 are from ① to ⑤, the choices from ⑥ to ⑨ should not be used.

(6) How to Answer for Japan and the World

- a. One of the row numbers 1, 2, 3, ... is provided for each question in the question booklets. These numbers are also printed on the answer sheets, so blacken the one appropriate answer choice (① to ④) in the answer row with the same row number given in the corresponding question.
- b. The answer sheet has answer rows numbered from 1 to 60, but you may not need to use all of them. Use only the answer rows needed to completely answer the questions, and leave the remaining answer rows blank.

(7) How to Answer for Mathematics

- a. Mathematics consists of "Course 1" and "Course 2". There is one booklet for mathematics. Select at the examination either "Course 1" or "Course 2" on the examination day.
- b. At the top of the middle of the answer sheet there is a space to select the course you will answer. Circle the name of the corresponding course and blacken the oval under it. **If you do not blacken the selected course, your answers will not be graded.**

[Example] When "Course 2" is selected for mathematics

Front Side

解答コース Course	
コース 1 Course 1	○ コース 2 ○ Course 2
○	●

この解答用紙に解答するコースを、1つ○で囲み、その下のマーク欄をマークしてください。
Circle the name of the course you are taking and fill in the oval under it.

- c. Be careful because choices for the mathematics questions begin with ⊖ (a minus sign (-)), ①, ②... while choices for other subjects begin with ①.
- d. The questions use letters (A, B, C ...) as answer keys. The answer sheets are also printed with these keys, so blacken the appropriate numeral (from 0 to 9) or minus sign (-) for each key corresponding to the same key in the questions.
- e. The answer sheet has rows lettered from A to Z, but you may not need to use all of them.

Use only the answer rows needed to completely answer the questions, and leave the remaining answer rows blank.

- f. In mathematics, there are two types of questions. In one type, you substitute a numeral or a minus sign for each answer key (letter) ; in the other type, you select the appropriate answer from several choices.
- g. For questions where the answer requires a number or the minus sign (−), since each of the denotation letters corresponds to a number from 0 to 9 or the minus sign (−), blacken the answer in the space specified.

[Exercise]

When answering $\frac{\boxed{D} \sqrt{\boxed{E}}}{\boxed{FG}}$ equals $\frac{-\sqrt{3}}{14}$, blacken the spaces as follows

[Answer Sheet]

D	●	①	②	③	④	⑤	⑥	⑦	⑧	⑨	
E	⊖	①	②	●	④	⑤	⑥	⑦	⑧	⑨	
F	⊖	①	●	②	③	④	⑤	⑥	⑦	⑧	⑨
G	⊖	①	②	③	●	⑤	⑥	⑦	⑧	⑨	

- h. The actual number of choices given for some multiple choice questions may be less than the number of choices printed on the answer sheet. In such cases, ignore the unused choices in the answer row.

[Exercise]

Q. For $a = 2^{35}$, $b = 3^{21}$, $c = 3 \cdot 0^7$ it holds that \boxed{H} .

① $a < b < c$ ② $a < c < b$ ③ $b < a < c$
 ④ $b < c < a$ ⑤ $c < a < b$ ⑥ $c < b < a$

[Answer Sheet]

Answer within this range.

H	⊖	①	②	●	④	⑤	⑥	⑦	⑧	⑨
----------	---	---	---	---	---	---	---	---	---	---

Since the choices for question \boxed{H} are from ① to ⑤, do not use the minus sign ⊖ or the choices from ⑥ to ⑨.
