Application

Eligibility

An eligible applicant must be foreign national (one that does not have Japanese nationality) **who has completed 12 years of schooling education** outside Japan and has desires to study at university, graduate school or technical school in Japan. (*An applicant must have completed upper secondary education in his/her country, which corresponds to high school level education in Japan)

***Due to the differences in schooling system in each country, some takes less than 12 years to complete upper secondary education. If that is the case, an applicant can compensate the short year(s) by graduating from 'Preparatory course' of the center, becoming eligible to apply to universities in Japan. (MEXT' s Notification No. 153 issue 2)**

Application period

Please refer to 「Guideline for Applicants」. Application deadline is about 6 months prior to the each entrance month. Application deadline can be extended from time to time. Please check it on our webpage for updated information or contact us by e-mail or telephone.

How to apply

If an applicant lives abroad, have a contact person (a proxy) who resides in Japan contact us and bring application documents to the school. (Depending on conditions, we would ask posting documents). Once application is accepted, application fee needs to be settled by the set date. Please consult it with us if an applicant has difficulties to meet application deadline.

Required documents

Please refer to the attached 「List for required documents」

Forms such as 「Application form」 「Pledge」 「Financial pledge」 「Reason for Japanese study」 and 「Medical certificate」 can be downloaded from the website.

Also, please refer to 「Detailed explanations for application documents」 .

All the documents handed in us will be handed to Osaka Regional Immigration Bureau after school screening. Please pay extra attentions so that there will be no discrepancy against the truth or omission in the statements. Due to the screening policy of immigration, numbers and sorts of required documents can be different from applicant's nationality to nationality.

When there are errors or omissions in the documents, we need to ask you for amendment. It surely takes time and will cause delay in application. When application doesn't meet deadline, it can cause denial both by the school (admission) and immigration (eligibility).

- * Please fill out **correct information without using abbreviations.**
- * Certificates issued by school, company and organization should be printed on **headlined paper.** (If such paper is not available, make sure that names of the organization and person in charge and their contact information appear on the certificate)
- * All the documents including photos should **not be more than 2-month old at the time of application.**
- * When a correction is necessary, **make a fresh document or strike out the error with double lines with writer's signature or seal over it** and write down the correct information near it.
- * Make sure to double check all the information on the documents.

Admission

O.J.L.E.C.'s Admission screening and result notice

Screening will be carried out on the documents handed in and, the result will be notified to applicant through contact person.

Eligibility application to Osaka Regional Immigration Bureau

Application as a proxy

The center will apply for eligibility of successful applicants to Osaka Regional Immigration Bureau as their proxy. Eligibility certificate is an indispensable document for student visa application.

Immigration's Screening result

「Certificate of Eligibility for Resident States」 will be granted to these who pass immigration's screening. The center receives the certificates from the immigration and will post mail to each applicant's contact person.

VISA application

Visa acquisition in applicant's country

An applicant who is granted with Certificate of Eligibility needs to go a Japanese embassy or consulate (usually the nearest one in one's home country) with the Certificate of Eligibility, passport and other required documents to process student visa application. Depending on the country, however; an applicant needs to go through an interview for the application. Make sure to remember what have stated on your application documents handed to the school.

Arrive in Japan

Settle school expenses, entry to Japan and go through entrance procedure

A successful applicant comes to Japan after he/she officially is granted with student visa. A successful applicant is expected to settle school expenses either when one's entry schedule is fixed or right after one's arrival in Japan. After arrival in Japan, accompanied by one's contact person, a successful applicant comes to the school for registration with a bank receipt for school expenses payment, passport and resident card, which is to be issued at an airport in Japan. Complete registration during the given period and take part in entrance ceremony. Be sure to inform it to the school in case if a successful applicant can't arrive during the registration period.

Others

Contact person

A contact person we mean is a proxy who lives in Japan and can help applicant with application process. In order to process application without difficulties, we ask every applicant have a contact person, especially for a case when both applicant and his/her financial guarantor live abroad. A contact person acts as a communication bridge between an applicant and the school and is expected to take care of an applicant to settle down in Japan.

Financial supporter

A financial supporter is a person who pays applicant's tuition and living expenses. A financial supporter has to have a close relationship to the applicant and, the relationship needs to be proven by such an official document. It is natural that one of the applicant's parents acts as one. In case if one of the parents doesn't take the responsibility and, one's aunt or uncle acts as the one instated, a convincing explanation and support document for the reason will be required.

Certificate of Eligibility for Resident States

Student visa is required to study at Osaka Japanese Language Education Center. (*)
In order to acquire student visa, one must be granted with Certificate of Eligibility to study in Japan.

We, the school, will process this eligibility application on behalf of applicants.

If and when applicant passes immigration screening, Certificate of Eligibility for Resident States will be issued. The school will receive it from immigration as a proxy and post mail to applicant through a contact person. When applicant receives Certificate of Eligibility, he/she goes to a Japanese embassy (consulate) to process student visa.

(* If an applicant hold a long term visa such as 「Dependent」 「Long Term Resident」 「Spouses of Japanese national」 and so on, please contact to the school for information about 'Application for residents within Japan',
