

The 55th TIEC Cross-Cultural Seminar

TIEC Cross-cultural Seminar invites various experts in the front line of diverse fields in Japan to give a speech enabling the participants to have deeper understanding of Japan from multiple perspectives.

Architecture Japanese Castle

— 城の建築 —

Castles are more enjoyable to view with knowledge. There are many unique castles existing in various parts of Japan. The "castle keep," which is part of the building that makes up the castle, is a deep and complex structure, and it has been elucidated that it was built using superior architectural techniques and various innovations. Guest Speaker, an expert on castles, will provide in-depth knowledge of the castle keep as a traditional architectural structure. Please join us for the 55th TIEC Cross-Cultural Seminar where you will discover new ways to enjoy castles.
