

発表者プロフィール / Presenter Profile

名前	
Name	K. K. L. B. Adikaram

所属大学／所属機関	
University／Affiliation	National Institute of Advanced Industrial Science and Technology, TOKYO

発表テーマ Presentation Topic	Importance of Non-Parametric Methods in Data Science
発表の3つのポイント 3 Points of presentation	<ul style="list-style-type: none"> • Outlier detection in linear regression • Density Cluster Generation and Visualization • Extrema Identification

自己紹介 Self-introduction	<p>PhD in Natural Sciences, Technical University of Munich Germany - 2018. MSc in Computer Science, University of Colombo, Sri Lanka - 2008. Worked Researcher in Bayerische Landesanstalt für Landwirtschaft, Germany (2010–2017). In Sri Lanka, I am working as a senior lecturer (Computer Science) in University of Ruhuna (20 years of experience)</p>
---------------------------	---

研究分野について About study field	<p>Algorithms, Automation, Big Data, Linear Fit, Non-Parametric Methods, Outlier Detection, Smart Agriculture, Software Development</p>
-------------------------------	---

視聴者へのメッセージ Message to viewers	<ul style="list-style-type: none"> • Efficient Algorithms • Big Data Visualization • Parametric Vs Non-Parametric Methods
----------------------------------	--
