### <参加者からのコメント>

Dalyyop Gadong Toma(ダリオプ ガドントマ)Nigeria(ナイジェリア) Since I started attending the intermediate Japanese class organized by JASSO-ABIC,my understanding of the Japanese language has been significantly improved.The reading exercises have improved my knowledge of the vocabulary and the use of the vocabulary in written and spoken communication. Through these reading exercises also as well as the Kanji exercises,my knowledge of the Chinese characters has been improved. Furthermore,having in-class conversation of the teachers has improved my Japanese speaking ability and provided a better appreciation of the nuances of the Japanese language .Overall attending the Japanese classes has been highly beneficial to me:and all for free.

Liu Zhou (劉卓) China(中国)

These classes are very good. I have attended Karate and flower arrangement classes.Even though my Japanese is not good, I can still feel a spirit of Japanese culture from these classes. Thanks for this good project.
